11. Item 9

In compliance with the SEC Notice to Publicly Listed Companies dated 12 March 2020, Atlas Consolidated Mining and Development Corporation (AT or the Corporation) respectfully reports that AT is a holding company with few employees. As a consequence, AT believes the risks and impact brought about by the COVID-19 pandemic to its employees and operation is minimal.

The health, safety and welfare of AT's employees and personnel are of paramount concern. Precautionary measures have been undertaken to mitigate and lessen the risks including the following: employees are allowed to work-from-home (WFH) with a skeletal workforce at the principal office for important and urgent matters. Employees are also encouraged to use remote communication in lieu of face to face meetings.

Business continuity processes are in place for the operations of AT and its subsidiary, Carmen Copper Corporation (Carmen Copper), which foresees lower copper prices in the world market. This lower copper price scenario will be mitigated by further improving efficiency across all departments and revisiting production costs. Non-essential travel within the Carmen Copper minesite is discouraged and movement in and out of the minesite is strictly monitored.

AT is closely monitoring developments on a regular basis with management ready to respond as the circumstances warrant.
